Education

Lalitpur Engineering College   **2020 − 2024(still running)**
Bachelor in Computer Engineering   *Lalitpur , Nepal*

Relevant Coursework

- Data Structures
- Software Methodology
- Algorithms Analysis
- Database Management
- Artificial Intelligence
- Internet Technology
- Systems Programming
- Computer Architecture

Projects

Netflix Clone | *React, Vite, Firebase*   **October 2024**
- Developed a fully functional Netflix-like application using React and Vite for rapid development and optimized performance.
- Implemented a responsive UI/UX design for seamless viewing across mobile and desktop devices.
- Integrated Firebase for user authentication and real-time data management, enhancing security and scalability.
- Utilized React's state management techniques to improve application performance and user experience.

Job Search Web app | *HTML, CSS, React , Node, Mangodb*   **July 2023**
- Developed a fully functional job search web application utilizing MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Implemented user authentication (login/signup) and profile management features, enhancing user experience and security.
- Integrated RESTful APIs for job search functionality, including filtering and sorting results based on user preferences.
- Ensured a responsive design for seamless usage across mobile and desktop devices, improving accessibility and engagement.

Jodi Finder | *HTML,CSS,React,Node,Mangodb*   **May 2023**
- Created a matchmaking web application using the MERN stack (MongoDB, Express.js, React.js, Node.js) to connect users based on shared interests.
- Developed a matching algorithm that suggests compatible users, enhancing the accuracy of pairings..
- Designed an intuitive and responsive user interface, ensuring a smooth experience across various devices.

Personal Portfolio Website | *HTML,CSS,Javascript*   **September 2024**
- Designed and developed a personal portfolio website using modern front-end technologies (HTML, CSS, JavaScript, React) to showcase projects and skills.
- Utilized responsive web design principles to ensure an optimized user experience across different screen sizes.
- Integrated custom date and time functionality, adding personalized touches to improve user engagement.
